

*So-Cal Sprinters Kart Club*

*Club of Champions*

December 15,2015

An open letter to the California karting community,

So-Cal Sprinters would like to warmly thank all those who raced with us in 2015. Putting on a monthly program for racers, young and experienced, who want to learn and have fun is what we live for! Unfortunately, attendance was sparse this year. Consequently, we have heard what our market is telling us.

By and large, racers would rather participate in professional promoter operated race series than in a local club racing series. We are sympathetic to the fact there are just so many racing dollars to go around. Other clubs with longstanding histories in southern California have experienced similar drops in attendance.

As a result, the So-Cal Sprinters Board has decided to significantly change our racing program for 2016. We will not have a monthly racing series. We will focus on two different ways to meet our mission.

First, we will offer a short series of driver school events. While details are still coming together, these events will offer several hours of driver training (different instruction for beginner and more experienced drivers and for Juniors and Seniors). This will include a race as way to test driver learning. These sessions will also offer instruction to drivers and mechanics in kart prep for race day and how to do a thorough pre-race inspection. The first session will be offered early in the year, others will be scheduled based on attendance.

Second, in the fall of 2016, we will put on the So-Cal Karting Championship weekend in conjunction with Adams Motorsports Park. This will be a multi-day event benefiting cancer research that will attract the best drivers in southern California and will offer significant prizes and topnotch wheel-to-wheel racing. We will be releasing dates and details early next year.

We are excited about the future of karting and are committed to providing valuable and fun racing experiences for karting families.

Sincerely,

So-Cal Sprinters Board of Directors
